Dan Neill

Nationally Board Certified
Hearing Instrument Specialist
30+ Years Experience
Fitting Hearing Aids

“Have you noticed that Hearing Aid prices are coming down? The average set of Hearing Instruments today runs approximately \$750 less than a comparable pair from 4 years ago.”

“And the technology and capabilities of today's units are sky-rocketing. Unitron just released its new TEMPUS product. That's what I wear. And I can say that it is the Clearest, Most Natural Sounding Aid EVER! Call or stop by. I'll show you one and set up a No-Obligation Test Drive if you desire.”

— Dan Neill
